## CES Playground Gets New Surface!

Above: Bags of mulch positioned to be opened.

Below: USD 333 Staff and the finished playground

Concerns about the gravel fall-surface on the CES primary playground prompted USD 333 Superintendent Bev Mortimer to apply for a Waste Tire Grant. The grant was a matching opportunity for the district to replace the gravel with a coated recycled rubber mulch. During spring break the USD 333 maintenance crew, and Asst. Superintendent Karl Stricker made the switch. Primary students returned from spring break to find a new “springy” surface for their play time. The CES PIE group donated half of the matching funds, and USD 333 provided the remaining funds. THANKS to all who helped make this improvement for the students!

The USD 333 Board of Education has had several special meetings to discuss the ongoing planning process for the district. Many areas have been discussed, and the Board will soon be prioritizing major projects. Currently, the Board has no plans for proposing any Bond Issues, as we currently are paying for the Concordia Elementary School Bond. No major building projects or construction will be proposed until the CES Bond is paid, which will be in 2014. All projects completed by the Board will be funded through the current budget and sources.

One of the projects being discussed is the district football field and track facility. As you can see in the photo, it is not a matter of IF the track is resurfaced; but more a matter of WHEN the track is repaired.

# Concordia Jr./Sr. High School

*Gregg Errebo, Principal*

With April upon us, Concordia Jr. /Sr. High becomes busier than ever! Our kids are going to be swamped with Kansas State Assessment testing, MAP testing, track meets, baseball/softball games, tennis, golf, band concerts, choir concerts, music festivals, art contests...the list goes on and on! As parents and teachers, we have to realize that some of our kids are in most of these activities and are at times overextended. As parents, we have to help organize our kid's schedules, making sure that they get the sleep and nutrition they need to maintain that hectic pace. Sometimes it's even good as a parent to tell their child "no" when it comes to adding even more to an already very full schedule. As teachers, we have to realize that we need to deliver quality instruction, with rigor to help prepare our kids for the future, but to also realize that too much can be counter-productive. It is a fine line that teachers walk in the spring, to get maximum effort from kids that are exhausted at times! If we can work together, parents and teachers, we can keep our kids headed in the right direction, with health and confidence, through this busy time.

## Students Commemorate Music In Our Schools Month

The Concordia Music Club in conjunction with Music in Our Schools Month, sponsored the 2008 Third Grade Poster Contest at Concordia Elementary School.

Winners were Lydia Knapp, first place, \$5; Samantha Ratliff, second place, \$3; Jordan Eshbaugh, third place, \$2. Six others received Honorable Mention, \$1 each.

Students studied still life at different stages from Cezanne and Matisse. They also studied Picasso and Georges Braque (Cubist).

Their teacher, Kim Sprague, had them create their own collage of a still life in Cubist style. Cubist style focuses on contour lines, texture, shape and color. Most drew the guitar and included found papers of sheet music.

Music In Our Schools Month is celebrated every March by schools and communities around the nation.

## Students Explore Future Options

On March 12, Concordia High School held its second annual "Career Day" where students were exposed to options and opportunities beyond Concordia High School. All freshmen spent the day visiting NCK Technical College in Beloit to see careers available from a technical school. Currently, 80% of the jobs require only a one or two year degree program beyond high school. Several of these technical careers offer starting salaries in the \$32,000 to \$45,000 range, even beyond starting salaries of some four-year degrees. If you have any interest or experience in the welding field the job market is wide open for you!

Sophomores, who attended Beloit last year as freshmen, spent the day in Salina. Several options were available. Some students spent the day at KSU-Salina exploring both two and four year options. Others chose to see career options available at Salina Technical College and Brown Mackie. Arrangements were even made for a dozen students to spend some time at the Academy of Hair Design in Salina.

Juniors and seniors spent the day at the high school where a total of 45 speakers and presenters shared wisdom, experience, and information on a wide variety of topics from careers to survival after high school. Kristy Griffin from Marshall, Minnesota challenged the students to step outside their comfort zones and stretch themselves beyond their training and experience. Kristy emphasized the work skills that employers are looking for today and encouraged students to set high goals for their future. Kristy is a Senior Vice-President for Schwan's Corporation.

Local presenters from Cloud County Community College, area businesses, and other local professionals shared survival information ranging from renting an apartment at college to buying a car; from budgeting and saving money to preparing for that job interview. The day concluded with students selecting from over twenty career specific options and having the opportunity to hear from a professional within that field. Interview options and summer job applications were also available for juniors and seniors. It was a great day and a great way to plan for the future.
